Tips for a Successful AP Exam

- Student Check-in time at the LMC on the day of the exam:
  - Morning Exams: **7:30am**
  - Afternoon Exams: **11:30am**
  - Students must bring photo IDs, in the event the proctors don’t know them and need to check their name.

- AP Teachers: you may be present to cheer on your students until proctors ask you to walk out the door (usually 7:40 or 11:50)

- Students should leave their cell phones/smart watches/other electronic devices in their cars. Proctors will ask that any electronics brought to the exam be powered down in their presence and then given to them for safe-keeping (in the same area) until testing is completely over. NO ELECTRONICS during the break.

- Students should bring a snack and drink for the break. They will keep it with them at their desk, under or off to the side. Students are NOT permitted to leave the testing area to go to the vending machines. Also, they are not allowed to get in their backpack or purses during the exam. Lastly, there is no eating during the exam, just at break. They may have a closed-lid water bottle with them during the exam.

- Students may only use the teacher restrooms outside the LMC...that is stay in the testing area.

- Students should bring extra batteries for their calculator.

- Proctors will have extra pens, pencils, and batteries, just in case.

- The proctors will have the Student Packs with their 2017 AP number stickers. Students do NOT use their AP number from prior exam years.

- Proctors will do everything in their power to create a secure and comfortable testing environment to help students succeed!
