Abstract

The topic that we chose to do our Cold War museum display on is the Bikini Atoll. Through our project we hope to inform and educate our peers on what happened at Bikini Atoll. This will be achieved through the use of detailed maps, relevant pictures, in-depth timelines, an intriguing Web Page, and an eye-catching poster board. We will also attempt to interview a few people who may have witnessed the events that took place at Bikini Atoll as well as those who have significant memories of life during the Cold War. Our goal is to enlighten everyone who views our project with something they did not previously know.
